**Mustek Portable DVD Player with 10-Inch Wide-Screen is
Ideal Compliment to Today's Active Lifestyles**

NEW YORK, NY (October 13, 2005) — Mustek USA, a worldwide leader in portable digital entertainment, today announced its largest screen portable DVD player ever, the new PL510T boasting a dazzling 10-inch TFT 16:9 widescreen display that delivers a true cinematic experience with DVD movies played in their original screen formatting.

The perfect compliment to on-the-go lifestyles, family vacations and business travel, the PL510T redefines the portable DVD player category's price-to-performance equation, providing uncompromising entertainment value with an MSRP of only \$349 (U.S.). This value is further demonstrated in such sought-after features as an analog TV tuner for those who want TV and DVD viewing, progressive-scan output to achieve incredible picture quality with no distortion, plus the Dolby® Digital Decoder that maximizes the high-end audio presentation built into today's DVD soundtracks.

-more-

With the PL510T, Mustek's goal was to assure consumers never run out of entertainment options. After watching their favorite movie on the PL510T, consumers can relax with some stereo-quality music while looking at digital photos of friends and family. This incredibly versatile player is compatible with the most popular media formats including DVD, DVD-R, CD, CD-R, CD-RW, JPEG & Kodak Picture CD player. There's even a slot for SM/MMC memory cards to view images directly from digital cameras, camcorders and other devices.

"For movies, music and photos, the PL510T is the portable DVD player of choice, whether you're on the road or in your home," said Bill Nguyen, Director of Marketing, Mustek USA. "Put side by side with similarly priced players, the PL510T is in a class by itself. Its feature set is comparable to players costing hundreds of dollars more."

Portability and convenience are hallmarks of Mustek design. Weighing in at 2.4 lbs. and measuring 10.6 (L) x 1.2 (H) x 7 (W) inches, the ultra-slim PL510T continues this tradition, giving travelers a widescreen DVD player that easily fits into carry-on luggage, a notebook bag or a briefcase. And its sleek, elegant style is sure to turn heads.

Because audio plays such a vital role in experiencing a DVD the PL510T features built-in stereo speakers that provide a virtual surround sound environment to optimize viewing enjoyment. Two stereo earphones also are included in the package.

The Mustek PL510T is immediately available. Accessories include a rechargeable battery pack, AC/DC power adapter & 12-volt car cigarette lighter adapter, Audio/Video cable for TV connection, two stereo earphone jacks and a credit card-sized wireless remote control.
